

SAFETY DATA SHEET

CONPROTECT CREME IN

(liquid)

Water repellent impregnator

Date prepared: 2024 Revision date:

Version: 1

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier

Product name ConProtect Creme IN

Pure substance/mixture Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses For industrial use. Waterproofing agent

Uses advised against Not determined.

1.3. Details of the Supplier of the Safety Data Sheet

Name of the manufacturer SL Protection OÜ

Address Vana-Narva mnt 30, Maardu, 74114 Harju maakond, Estonia

E-mail info@slprotection.eu

Phone/fax (+372) 55666174

1.4. Emergency telephone number

Emergency telephone number Estonian National Poisons Information Centre: 16662 (+372 794 3794 from

abroad) / Emergency telephone number: 112

Emergency telephone - §45 - (EC)1272/2008

2. HAZARDS IDENTIFICATION

Hazard Classification

Health Hazards

Skin Irrit. 2, H315

Eye Irrit. 2A, H319

Skin Sens. 2 H317

See Sections 11 and 12 for more detailed information on health effects and symptoms and environmental hazards.

Label element

Signal word Warning

Hazard statements Causes skin irritation.

May cause an allergic skin reaction.

Causes serious eye irritation.

Precautionary statements

Prevention: Wash face, hands and any exposed skin thoroughly after handling. Wear

protective gloves/protective clothing/eye protection/face protection.

Response: IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get

medical advice/attention. Take off contaminated clothing. Specific treatment (see

supplemental first aid instructions on this label).

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get

medical advice/attention.

Product Safety Data Sheet ConProtect Creme IN

Disposal: Dispose of contents/ container to an approved facility in accordance with

local, regional, national and international regulations.

Other hazards: No data available.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Identity: Alcohols, C11-14-iso-, C13-rich, ethoxylated / Silicon compound

CAS number: 78330-21-9

Content in percent: 1 - <3% /50 - <70%

All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. The exact concentration has been withheld as a trade secret.

4. FIRST AID MEASURES

Description of first aid measures

General advice Immediately remove contaminated clothing.

Inhalation Following inhalation of aerosols or mist: Move to fresh air. Get medical attention if any

discomfort continues.

Eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 5 minutes.

Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical attention. In case of

persistent discomfort: Consult an ophthalmologist.

Skin contact Wash off immediately with soap and plenty of water. If skin irritation persists, get

medical attention.

Ingestion Rince the mouth with water. Drink plenty of water in small sips. In case of discomfort,

obtain medical attention.

Self-protection of the first aider No data available

Most important symptoms and effects, both acute and delayed

Symptoms None known.

Hazards: None known.

Indication of any immediate medical attention and special treatment needed

endoscopy in order to assess mucosa lesions in the oesophagus and stomach which

may appear. If necessary, aspirate leftover substance.

5. FIREFIGHTING MEASURES

Extinguishing media

Suitable extinguishing media Water spray, fog, CO2, dry chemical or foam.

Unsuitable extinguishing media N/A

Special hazards arising from Standard procedure for chemical fires.

the substance or mixture

Advice for firefighters

Special fire-fighting procedures:

Water used to extinguish fire should not enter drainage systems, soil or stretches of water. Ensure there are sufficient retaining facilities for water used to extinguish fire. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Containers can build up pressure if exposed to heat (fire). Cool with water spray.

Special protective equipment and precautions for fire-fighters

As in any fire, wear self-contained positive pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment. Ensure adequate ventilation.

Accidental release measures: No data available.

Methods and material for

containment and cleaning up: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal

binder, sawdust). Fill into marked, sealable containers. To be disposed of in

compliance with existing regulations.

Environmental precautions: Do not allow entrance in sewage water, soil stretches of water, groundwater, drainage

systems.

7. HANDLING AND STORAGE

Precautions for safe handling

Local/Total ventilation: Provide adequate ventilation.

Safe handling advice: Handle and open container with care. Handle in accordance with good industrial

Hygiene and safety practice. The personal protective equipment used must meet the requirements of Regulation (EU) 2016/425 and amendments (CE certification). If workplace exposure limits are exceeded and/or larger amounts are released (leakage, spilling, dust) the indicated respiratory protection should be used. If there is the possibility of skin/eye contact, the indicated hand/eye/body protection should be used. Do not breathe in vapours or aerosols. Avoid contact with skin and eyes.

Contact avoidance measures: No data available

Storage

Safe storage conditions: Keep tightly sealed in original packing. Protect from frost. Keep away from heat and

sources of ignition. Take precautionary measures against static discharges. Explosion protection equipment required. Residual vapors might explode on ignition; do not apply heat, cut, drill, grind or weld on or near this container. Keep containers tightly closed in a cool, well-ventilated place. Protect from moisture. Do not store together

with: strong acids, bases. Keep at temperature not exceeding 40°C.

Safe packaging materials: No data available

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

Occupational Exposure Limits None of the components have assigned exposure limits.

Biological Limit Values No biological exposure limits noted for the ingredient(s).

Appropriate Engineering Controls Provide adequate ventilation.

Individual protection measures, such as personal protective equipment

General information: No data available.

Eye/face protection:Safety glasses. Use chemical splash goggles or face shield.
Hand Protection:
Material: Polychloroprene (PCP)

Material: Polychloroprene (PCP) Break-through time: >= 480 min.

Glove thickness: 0.5 mm.

Material: Fluorinated rubber (FKM) Break-through time: >= 480 min. Glove thickness: 0.4 mm

Guideline: Source: GESTIS substance database (hazardous substance

information system of commercial professional associations)
Additional Information: Selection of protective gloves to meet the

requirements of specific workplaces. The suitability for a specific workplace should be discussed with the producers of the protective gloves., The information is based on our own tests, references from the literature and information from glove manufacturers, or derived by analogy with similar materials., Be aware that in daily use the durability of a chemical resistant

protective glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside influences (e.g. temperature).

Skin and Body Protection: Safety showers and eye showers should be easily accessible. In order to

determine further specifications applicable to the personal protection equipment, a hazard assessment according to the OSHA standards (29 CFR 1910.132) for personal protection equipment (PPE) is recommended before the product is used.

suitable protective clothing - Use disposable clothing if appropriate.

Respiratory Protection: In case of dusts/vapours/aerosols being formed or if the limit values like TLV are

exceeded: use respiratory equipment with suitable filter (filter type ABEK) or wear a self-contained respiratory apparatus Use only respiratory protection equipment with CE-symbol including four-digit test number. The filter class for the respirator must be suitable for the maximum expected contaminant concentration

(gas/vapor/aerosol/particulates) that may arise when handling the product. If this concentration is exceeded, self-contained breathing apparatus must be used.

Note time limit for wearing respiratory protective equipment.

Hygiene measures: Avoid contact with skin, eyes and clothing. Do not inhale vapors or aerosols.

When using, do not eat, drink or smoke. Wash face and/or hands before break and end of work. Immediately remove contaminated clothing. Wash contaminated

clothing before re-use.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state Liquid

Form Pasta

Colour White

Odour Alcohol

Odour threshold No data available.

Freezing point: N/ABoiling Point: N/AFlammability: N/A

Upper/lower limit on flammability or explosive limits

Explosive limit - upper: No data available.

Explosive limit - lower: No data available.

Flash Point: > 95 °C Method: DIN EN ISO 2719

Auto-ignition temperature: No data available.

Decomposition Temperature: > 100 °C

pH: 6 - 8 (20 °C) DIN 38404-C5

Viscosity

Product Safety Data Sheet ConProtect Creme IN

Dynamic viscosity: 350 - 750 mPa.s @ 20 °C

Method: DIN 53019

Kinematic viscosity: No data available.

Flow Time: No data available.

Solubility(ies)

Solubility in Water: Miscible

Solubility (other): No data available.

Partition coefficient (n-octanol/water): No data available.

Vapor pressure: 23 hPa @20 °C tested substance: water.

Relative density: No data available.

Density: Approx. 0.9 g/cm3 @20 °C Method: DIN 51757

Bulk density: No data available.

Relative vapor density: No data available.

Other information

Peroxides: Not applicable

10. STABILITY AND REACTIVITY

Reactivity

No dangerous reaction known under conditions of normal use.

Chemical stability

Stable under the recommended storage and handling conditions.

Explosion data

Possibility of hazardous reactions None under normal processing.

Conditions to avoid Protect from frost.

Incompatible materials Strong acids and strong bases.

Hazardous decomposition products Ethanol in case of hydrolysis. Alcohol formed by hydrolysis lowers the

flash point of the product.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

InhalationNo data available.Eye contactNo data available.Skin contactNo data available.IngestionNo data available.

Acute toxicity (list all possible routes of exposure)

Oral

Product: ATEmix: > 2,000 mg/kg

Dermal

Product: Not classified for acute toxicity based on available data.

Inhalation

Product: Not classified for acute toxicity based on available data.

Repeated dose toxicity

Product: No data available.

Components:

Silicon compound NOAEL (Rat, Oral, 28 d): 300 mg/kg

Skin Corrosion/Irritation

Product: Irritating., OECD 404, Irritating to skin. Own study

Components:

Silicon compound Irritating., OECD 404, Rabbit

Serious Eye Damage/Eye Irritation

Product: Irritating

Respiratory or Skin Sensitization

Product: No data available.
Components:

Silicon compound Maximization Test, OECD 406, Guinea Pig, Not a skin sensitizer.

Carcinogenicity

Product: No data available.

Components:

Silicon compound No evidence that cancer may be caused.

Germ Cell Mutagenicity No evidence of mutagenic effects.

In vitro

Product: No evidence of mutagenic effects.

In vivo

Product: No data available.

Reproductive toxicity

Product: No data available.

Components:

Silicon compound No evidence of reproduction toxic properties.

Specific Target Organ Toxicity - Single Exposure
Product: No data available.

Specific Target Organ Toxicity - Repeated Exposure Product: No data available.

Aspiration Hazard

Product: No evidence of aspiration toxicity.

Information on health hazards

Other hazards

Product: No toxicological tests are available on the product.; The toxicological data on this

product have not been determined experimentally.

12. ECOLOGICAL INFORMATION

Ecotoxicity:

Acute hazards to the aquatic environment:

Fish

Product: No data available.

Components:

Silicon compound In the range of water solubility not toxic under test conditions.

Aquatic Invertebrates

Product: No data available.

Components:

Silicon compound In the range of water solubility not toxic under test conditions.

Toxicity to Aquatic Plants

Product: No data available.

Components:

Silicon compound EC 50: In the range of water solubility not toxic under test conditions.

Toxicity to microorganisms

Product: No data available.

Toxicity to terrestrial organisms

Product: No data available.

Chronic hazards to the aquatic environment:

Fish

Product: No data available.

Aquatic Invertebrates

Product: No data available.

Toxicity to Aquatic Plants

Product: No data available.

Toxicity to microorganisms

Product: No data available.

Toxicity to terrestrial organisms

Product: No data available.

Persistence and Degradability

Biodegradation

Product: No data available.

BOD/COD Ratio

Product: No data available.

Bioaccumulative potential

Bioconcentration Factor (BCF)

Product: No data available.

Partition Coefficient n-octanol / water (log Kow)

Product: No data available.

Mobility in soil:

Product No data available.

Other adverse effects:

Other hazards

Product: No ecotoxicological studies are available.

13. DISPOSAL CONSIDERATIONS

Disposal methods: Waste must be disposed of in accordance with federal, state and local regulations.

Incineration is the preferred method. Empty containers must be handled with care due to product residue. DO NOT HEAT OR CUT THE EMPTY CONTAINER WITH

ELECTRIC OR GAS TORCH.

Contaminated Packaging: Do not reuse empty containers and dispose of in accordance with the regulations

issued by the appropriate local authorities. If there is product residue in the emptied container, follow directions for handling on the container's label. Incorrect disposal or reuse of this container is illegal and can be dangerous. Other countries: observe the

national regulations.

14. TRANSPORT INFORMATION

ADG Not regulated as a dangerous good

International Regulations

UNRTDG Not regulated as a dangerous good

IATA-DGR Not regulated as a dangerous good

Remarks: Not hazardous freight in air traffic (ICAO-TI / IATA-DGR).

IMDG-Code Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

15. REGULATORY INFORMATION

Safety, Health, and Environmental Regulations/Legislation Applicable to Substances and Mixtures

EU Reaulations:

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I, controlled substances: None or none in regulated amounts (based on current knowledge of the product composition).

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex II, new substances: None or none in regulated amounts (based on current knowledge of the product composition).

REGULATION (EC) No. 1907/2006 (REACH), Annex XIV - List of Substances Subject to Authorization: None or none in regulated amounts (based on current knowledge of the product composition).

Regulation (EU) No. 2019/1021 on persistent organic pollutants (recast), amended: None or none in regulated amounts (based on current knowledge of the product composition).

Regulation (EC) No. 649/2012 on the export and import of hazardous chemicals, Annex I, Part 1, amended: None or none in regulated amounts (based on current knowledge of the product composition).

Regulation (EC) No. 649/2012 on the export and import of hazardous chemicals, Annex I, Part 2, amended: None or none in regulated amounts (based on current knowledge of the product composition).

Regulation (EC) No. 649/2012 on the export and import of hazardous chemicals, Annex I, Part 3, amended: None or none in regulated amounts (based on current knowledge of the product composition).

Regulation (EC) No. 649/2012 on the export and import of hazardous chemicals, Annex V, amended: None or none in regulated amounts (based on current knowledge of the product composition).

EU REACH Candidate List of Substances of Very High Concern (SVHC): None or none in regulated amounts (based on current knowledge of the product composition)

Regulation (EC) No. 1907/2006, Annex XVII. Restrictions on the manufacture, placing on the market, and use of certain dangerous substances, preparations, and articles: None or none in regulated amounts (based on current knowledge of the product composition).

Directive 2012/18/EU (SEVESO III) on the control of major accident hazards involving dangerous substances, as amended: Not applicable.

Regulation (EC) No. 166/2006 establishing the European Pollutant Release and Transfer Register, Annex II: Pollutants: None or none in regulated amounts (based on current knowledge of the product composition). Directive 98/24/EC on the protection of the health and safety of workers from risks related to chemical agents at work: 2-Methyl-2H-isothiazol-3-one CAS No. 2682-20-4 >=0.0015 - <0.01%

Chemical Safety Assessment:

A chemical safety assessment is not required for this product.

International regulations

Montreal protocol

Stockholm convention

Not applicable

Rotterdam convention

Not applicable

Kyoto protocol

Not applicable

Complete texts of hazard categories and phrases:

Skin Irrit. 2, H315 - Skin Irritation Category 2, H315 Causes skin irritation.

Eye Irrit. 2A, H319 - Serious Eye Irritation Category 2A, H318 Causes serious eye irritation.

Skin Sens. 2 H317 - Skin Sensitization Category 2, H317 May cause an allergic skin reaction.

Other information:

This safety data sheet summarizes the best knowledge we have at the time of issuing this safety data sheet about the health and safety risks of the product, and in particular about the safe handling and use of the product in the workplace. As SL Protection OÜ cannot foresee or control the conditions under which the product is used, each user must use the safety data sheet before using the product to find out how the product must be handled and used at the workplace.

If the user requires further explanation or additional information about the product, they should contact our company. Our liability regarding the sold product is defined by the standard terms and conditions, a copy of which has been sent to our customers and is also available on request.

Further Information: No data available.
